Let's Make a . . .

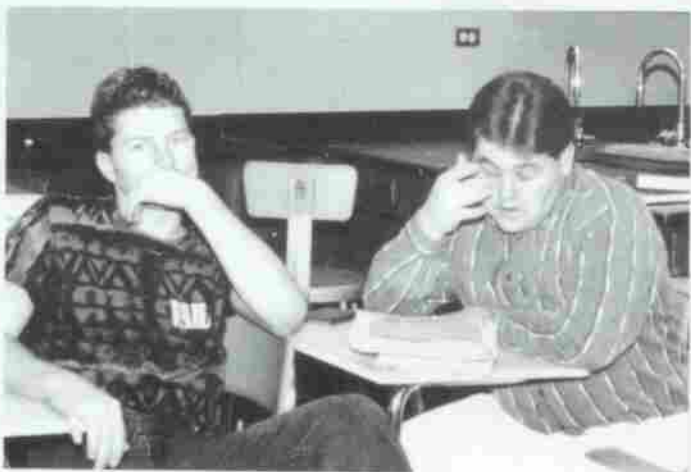

Memory

A memory is something that can last a lifetime. Once a memory is made nobody can ever take it away.

In this yearbook we, as the editors, have tried to capture some great events. These events have helped to create new memories for some people.

For our seniors this was their last year. The rest of the student body can come back next year and fill another yearbook with many new memories.

PERSONALITIES

Educated populace is more important than ever

The faculty, staff and administration of Forest Park Junior-Senior High School are proud to be an integral part of the educational process of the youth of Southeast Dubois County School Corporation. The importance of our role as educators has never been greater.

Emergence of new technologies, emergence of new industrial processes, and the emergence of a new world order have placed a greater demand for an educated populace than ever before. In recognition of this fact, we at Forest Park have renewed our efforts to present the best educational opportunities possible for all students. Educational programming, creation of positive learning environments, and challenging students to use and apply knowledge learned were made top priorities.

These efforts were well received and the school year brought forth many positive results. Although the educational foundations developed this school year will only be the first of many that will be needed for a successful

Seniors make memories

For the past four years we, the class of '92, have not only increased our knowledge, but we have also matured into young adults. We have reached a very important goal in our lives. Now we must go out into the world and take on new responsibilities and meet new people.

Through the years not only have we matured as individuals, but we have matured as a class. When we have had a problem, we have been able to pull together and solve it, not as a group of individuals, but as one class.

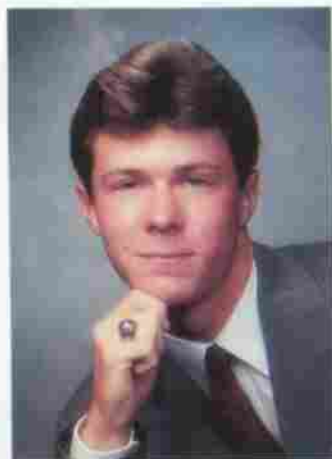

Hopefully now we can use what we have learned here to help us make the right decisions and choose our own paths to success.

Juniors meet their challenges

Our years together at Forest Park are quickly nearing an end. The class of 1993 survived two years as underclassmen and has finally reached the top. We are willing and ready to accept our new role as seniors. It is a shame to see our old, senior friends leave Forest Park, but the world beckons them forward. We must now take their place by continuing a tradition of strong leadership.

During our junior year we completed many projects with fantastic results. Among these were magazine sales and preparing the prom. We pulled together and gave it our best effort. This just goes to show how well we cooperate as a whole. No challenge is too great for us. Hopefully the same ability and drive will carry with us into the future.

Freshmen enjoy new experiences

We, the freshman class of Forest Park, have learned many new things in our first year of high school. We look forward to our next three years at FP.

As freshmen we have experienced a variety of new and valuable things. By taking on all the new responsibilities we have matured. Now we can look back on all the things that happened this year and chalk it up to experience.

We have had a successful year. The class adjusted well and worked together. We came together as one unit and stuck together through the year. We are looking forward to another three years together.

Life skills class benefits from work experience

The students in the life skills class gain experience in real-life skills. They learn skills that will help them in the future. They learn to go shopping and how to pay for their groceries. They also learn how to order food in fast food restaurants and how to pay for it.

Students get a lot of attention from their teacher, Mrs. Paula Peter, and her aide, Mrs. Mary Kay Berger. They help the students learn activities that will give them skills they will need to live productive lives. The life skills students also benefit from spending time with other Forest Park students.

We made a

Memory

With all our memories it is now time to say good-bye. A good-bye is necessary among friends before they can meet again. We would like to take this opportunity to say good-bye to all the seniors from the class of 1992. This is their chance to go out and prove to the world they are ready. But the memories are there for them to reflect upon if ever they long for the days of high school. The year holds good times and bad times for students of Forest Park. Turn the good times into memories that will last a lifetime and never forget the friends you made while attending Forest Park.

Acknowledgements

Another school year has come to an end. Over the year we had several opportunities to make memories. We have tried to capture some of those memories in the '92 Tracer. None of it would have been possible had it not been for our supervisor, Mr. Ed Walston. To him we would like to say, thank you. We also owe another thanks to Mr. Bob McCarty. His cooperation and photography were greatly appreciated. Another thanks goes out to Mr. Steve Pumphrey, our representative from Herff Jones.

We would also like to extend a thank you to the Dubois County Herald and The Ferdinand News for the use of some photos. The cooperation from faculty, staff, coaches and sponsors is also appreciated. Another thanks belongs to the students of Forest Park. Thank you for your cooperation in letting us capture the great memories. To everyone who contributed, thank you.
